

Finastra Practice Overview

The result of a merger between financial technology giants Misys and D+H, Finastra is the world's third-largest fintech company as of 2018. Finastra provides mission-critical solutions for financial institutions, offering a unique componentized, open architecture that enables client innovation. Whether your interest is retail banking, transaction banking, lending, or treasury and capital markets, Synechron can help you get the most out of Finastra's technology.

As a **Finastra Partner** with a global reach and over a decade of hands-on Finastra experience, Synechron is prepared to extend our financial services expertise and innovative approach to help you implement, migrate, upgrade, and optimize your Finastra solutions.

Synechron's Finastra Capabilities

Managed Services

- Predefined scope with explicit KPIs and challenging deadlines utilizing a dedicated team
- Multi-platform "Run the Bank" capacity
- Mixshore approach, "where applicable"

Testing Factory

- Design, track, and manage test cases and runs
- Define acceptance criteria and fine-tune systems to achieve acceptance
- Continuous testing utilizing an automated UI testing tool

Business Consulting & Project Management

- End-to-end project delivery for projects ranging from short-term to long-term, multiyear initiatives
- Examples of engagement include: greenfield implementation, system upgrades, system health checks, audit and recommendation, workflow review, etc.

Training

- Standard or tailor-made courses
- Customized courses for End-users, Business Analysts, and Developers

Finastra Core Service Offerings

We are a Finastra Partner for the FusionCapital and FusionBanking product suites where we support Summit, Sophis, LoanIQ and TI+ as part of the partnership and have strong experience working on client-driven use cases for Finastra's other key products including Kondor+ and Opics.

In addition, we work with Finastra to deliver our mutual clients innovative solutions using the latest technologies developed in our Financial Innovation Labs (FinLabs) and will continue to add to the list of products we support.

Capital Markets

With deep domain expertise, Synechron offers clients design and development experience, across front, middle and back-offices, across all asset classes, throughout the trade life-cycle. Additionally, risk and regulatory compliance experts work to mitigate potential financial or regulatory complications, and streamline and automate reporting for new and existing systems.

Finastra Partner: FusionCapital	
Summit	Sophis
Additional Deep Practice Experience: FusionCapital	
Kondor+	Opics

Lending & Transaction Banking

Synechron provides clients with extensive experience in the Lending and Transaction Banking lines of business, providing front-to-back Systems Integration services for numerous clients, performing architectural assessments on existing systems, and developing Blockchain applications for Lending and Trade Finance.

Finastra Partner: FusionBanking	
LoanIQ	TI+ and Corporate Channels
